Bronchitis, Spitting of Blood, Pain in the Side and
Breast, Pieurisy, Whooping Cough, Croup,
Liver Complaint, Palpitation of
the Heart, and all Diseases of the Throat,
Chest & Lungs.

THIS Balsam is beyond all doubt the most pleasant and
efficacious remedy ever discovered for all diseases of
the throat, chest and lungs. It has been thoroughly tested and universally acknowledged by Physicians, Druggists
and all who have used it, the best remedy now offered to
the public for Pulmonary Complaints.

Too much care and attention cannot be given to diseases
of the lungs. Reader, have you a cold, ceugh, or any disease of the Lungs? Do not neglect it. Millions of the old
and the young, the fashionable and the gay, are annually
censigned to a premature grave by neglecting to attend to
a common cold. Colds and Coughs lead to consumption
and if not removed by a proper remetly then to an early
death. Be advised in time. Procure at once the celebrated
remedy—Dr. Carter's Cough Balsam—which has cured
thousand upon thousands after physicians, and all noted
remedies had failed, and the patient had been given up by
friends to die.

AYER'S CHERRY PECTORAL

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilised country on this continent without some personal experience of its effects, and fewer yet the communities anywhere which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safes remedy that can be employed for infants and young per sons. Parents should have it in store against the insiduous enemy that steals upon them unprepared. We have abun-

My Little Baby's Shoes. Two little shoes are lying on My table as I write; Two little shoes that held in joy, My very heart's delight. Two little velvet feet contained,

That but two years had grown
Two little, dainty, tottering feet,
Just toddling 'round alone.

The strap of one is broken quite,
And off a button's torn,
But still they both retain the shape
They had when they were worn;
The leather of them both is chafed
When he was wont to creep—
When through the holes his little toes
Would often, often peep.

My heart—my very eyes are full Of the seul's bitterest dews,

Of the seni's bitterest dews,
When'er I sit me down and see
Those little ragged shoes.
I always keep them lying there,
Though sorrow's o'er the brim
Of all my heart. They're all I've gotYea, all that's left of him. The tears are gath ring in my eyes,
But past are sorrowing yearsAgain he's in his little shoes,
I see him through my tears.

Mr. Orr, on taking the chair, said:

Gentlemen of the House of Representatives: I thank you for the honor you have conferred in selecting me to preside over your deliberations.

The delicate and responsible duties of the Chair will be comparatively light if I shall be so fortunate, as doubtless I will be, as to secure your cordial co-operation in discharging the business of the House, maintaining its dignity, and preserving its decorum. The rules you may adopt for your government I shall seek to administer firmly, faithfully and impartially. The grave interests confided to us by the people of this Confederacy admonish us to cultivate a patriotism as expansive as the Republic itself, and I cherish the ardent hope that our public duties here may be discharged in suchs manner as to promote the interests and happiness of the people, to uphold the Constitution, maintain the Union in its integrity, quicken the prosperity of the States of the Union, and build up the greatness and glory of our common country.

A bankrupt law, to include two classes of cor porations, is recommended by the Secretary of the Treasury. The two classes of corporations alluded to are banks and railroad companies.— The law, in his opinion, should be frame 1 for the protection of creditors, and not for the relief of debtors; that the law be compulsory, not voluntary, to prevent improper credit, and not to pay improvident debts. The object of such an act is to restrain the operations of these corporate bodies, and to insure to the country all the bene fits they are capable of conferring, with accompanying hazards of wild speculations and ruinous revulsions." In alluding to the suspen sions of specie payments by the banks, the Secre

tary says:

Since the discovery of gold in California, in 1849, there has been coined at the mints of the United States the sum of \$400,000,000, and even a large amount has been added from that source to the gold of the world. At that time it was estimated that there was in the United States \$120,000,000 of specie. Of that amount the banks held \$43,000,000, upon which they issued a circulation of \$114,743,415. Their deposits at that time amounted to \$91.178,623. It is estimated that there is now in the U.S. \$260, 000,000 of specie, and of this sum the banks have \$50,000,000, upon which they have issued a circulation of \$214,778,822, and their deposits have increased to \$230,351,352. It will be seen from this statement that, with the increased quantity of specie in the country, the banks have only increased their specie from \$43,000,000 to \$60,000,000, whilst they have increased their circulam \$114,743,415 to \$214,778,822.

The sub-treasury system for each of the several States is recommended as a partial prevention of bank expansion or bank suspension.

THE TURKISH HAIR

Beard Invigorator!

THAT far famed oriental remedy fer restoring the growth of the hair and beard, and so long a secret known only to the inhabitants of Turky and Persia, has been discovered and is now before the people of this country. Our object is to notify the public where it can be had; as the American proprietors, after thoroughly testing its merits in thousands of instances, challenge a single case in which the preparation will not completely restore the hair and cause a full growth of beard under a forfeiture of \$600. The mysterious power of this remedy has caused the hair to grow after every other medicine had failed, and produced a thick growth of whiskers on faces before beardless, in a remarkably short times. It is put up in bottless with full directions and guaranty accompany tog each les with full directions and guaranty accompan; log each rice \$1 per bottle, sent free of expense to the purchaser ny mail or express, to any part of the United States. A Few Facts in Regard to Rolling Minnesota the past year.

PUBLISHERS OF SENTINEL-Gentlemen :- With your kind permission I would like to occupy a small space in your paper to make known a tew facts on the above named subject, merely for the purpose of conferring "honor upon whom honor is due." For the last two years and upwards I have noticed articles in the Detroit, and latterly have noticed articles in the Detroit, and latterly in the Indianapolis papers, on the subject of Rolling Mills. I do not propose to mention all the mills in the country, nor one half of them. But the following I will dwell upon for a few moments: Firstly, the Wyandott Rolling Mill, at Wyandott, Michigan; the Chicago Rolling Mill, at Chicago; and, lastly, the Indianapolis Rolling Mill, at Indianapolis. Now, as the credit of designing the above mills was conferred noon variety. signing the above mills was conferred upon varipersons, and in neither case to the right one, I propose to make known to whom the credit rightfully belongs, and to whose skill and inven-tion the different parties and in fact the whole

It is none other than Mr. Lewis Scofield, now a resident of this city, who has been engaged in the manufacture of iron for thirty years and has been a Manager and Superintendent of known good standing for twenty years. He was in the employ of Peter Cooper, of New York, and the Trenton Iron Works Company, of Trenton, New Jersey, for fifteen years; after which he was engaged in business for himself at Utica, N. Y., and while engaged there he received an offer from the proprietors of the Tredegar Iron Works, at mond, Virginia, to take charge of their two ne was engaged as Superintendent of the two Mills known as the Montour Iron Works. He hen went back to Richmond to put up additional machinery to that which they had had in use, and while engaged there he received a proposition from E. B. Ward and others, forming the Eureka Iron Works Company of Detroit, Michigan, to take up and remove the machinery from Utica, New York, known as the Utica Iron Works, to Wyandott, Michigan, where it was remoddled in-to a Merchant Mill for the manufacture of bar ron, with the addition of new machinery. The building were designed by Mr. L. Scofield, and Richard Moore was rapturously applauded. while in their employ as Superintendent of the above, he furnished the design, drawings, ctc., for ing Mills. Mr. Scoffeld also furnished the designs, drawings, specifications, etc., for the Chicago Ruil Mill, a very large mill. He also designed and furnished all of the specifications, drawings, etc., for the Indianapolis Rolling Mill, which mill he superintended the completion and operation of until it closed, the last mentioned. Specifications and drawings are now being employed in the constructon of the Mill at Atlanta,

Georgia, which will be completed in the spring I understand that Mr. John Thomas, formerly foreman of the Indianapolis Rolling Mill, is to have the future management of it. By ONE WHO KNOWS. Indianapolis, Dec. 10th, 1857.

STAR MILL

IMPROVED, 1857. Meas and General Stock Feed.

Was awarded the premium in contest with Scott & Hedge's Double Coned Little Giant, Leavett's Young America Excelsior, Wren's Eagle Mill, Brant's Stock Mill, Felton Power Mill, and the Great Western Double Mill.

The Star Mill was preferred above all others for the fineness of Grinding, the economy of its draft, and the general simplicity and strength of its construction. I was a glorious victory,—one that will give it a wide reputationand secure for it many friends throughout the Western and Southern States. Its operation far surpassed all the rest and the success which attended the practical trial is worthy of note.—Indiana State Journal.

The Star Hill still Ahead on the 24th of December, at Wabash town.

N. B.—We the undersigned citizens of Wabash County, having seen Leavitt's Excelsior Young America, Scott & Hedge's Little Giant and Joyce's Star Mill, each thoroughly tested in this place, and we take pleasure in saying that in our opinion, the Star Mill is entirely superior to all others. In one of the trials we witnessed, the Star Mill ground seven and a half rushels of Corn, while the Little Giant ground three and a half bushels—(the Young America was so far behind the others, that it does not deserve a notice; and with less power than was applied to the Little Giant. H. HANNA, E. LASELL, E. E. KEYS, H. W. HANNA. A late Trial Test in Sullivan, Indiana

report:

We, the undersigned, chosen to decide on the qualities of the Little Giant Mill and the Star Mill, after a full examination of said Mills, seeing their performances, and hearing the explanations of the respective owners respecting each mill, conceive that there is a very little difference in the general claims of said Mills, but we feel constrained, all things considered, that for general purposes, the preference is in favor of the Star Mill.

Respectfully submitted,

Mr. Hunt & Co.—Sirs: I purchased one of your Star
Corn and Cob Mills last winter. and I can recommend it to
the public to be a good Mill, and preferable to the Giant
Mill as I used one of them before purchasing yours. I
consider the Star Mill much the best Mill, add think every
Farmer should use one for feeding purposes.

Certificate.—I hereby certify that I have this day, after thoroughly testing one of J. O. Joyce's Star Corn Mills, purchased the same, and am well pleased with the entire operation of the Mill. In my opinion the Mill is fully equal to the recommendations which have been given it. I have also changed my Little Giant Mill, which I have had for asso changed my little desired mill. I am well satisfied that the Star Mill is decidedly superior to the Little Giant in its grinding qualities and of much easier draft. I would recommend all Stock feeders to purchase the Star Mill in preference to all mills with which I am acquainted.

WE claim or this Mill a superiority over all others now by are he public, on account of easy adjust ment, simplicity of construction, economy of power, and rapid grindir.

For its new an angement by which the grinding surfaces can be renew if the pleasure, by any person, at a small cost; thereby remarking all objection on the score of durability.

The late improvement, patented February, 5th, 1856, with the combination of Crushers and Saw-Teeth Segments does away entirely with the accumulation of Cob at the top of the Mill, which is now a great objection to all other feed mills.

In this Mill, the Corn and Cob pass through together making an easy and uniform draught for the team, and requiring but one adjust bolt or screw; it can be regulated to grind fine or coarse at pleasure, or to set it very coarse, converts it at once into a Superior Corn Skeller. The Stock Grower and Farmer can save 30 or 40 bushels of Corn in each 100 by the use of this Mill, and having once experienced its benefits, will never return to the wasteful practice of feeding corn in the ear.

AT THE INDIANA STATE FAIR FOR 1856, The 'Star Corn and Cob Mill,"

A CONTEST.

On the 11th day of August a great contest came off on the Public Square, Sullivan, between Scott and Hedges' double cone Little flant Corn Mill and Joice's Star Corn Mill, at which the committee appointed to decide on the merits of the machines after seeing them thoroughly tested in several different ways of grinding, and examining the construction of the two mills, and made the following report:

Crusher, I take pleasure in saying that I into it fully equal to your recommendation in all respects, and I most cordially recommend it to all Farmers, as the most useful and economical method of preparing feed for Horses, Milk Cows Calves, &c Respectfully yours,

Dr. S. JONES.

Mr. Hunt.—Dear Sir: I think you can sell several mills in my settlement. After testing your mill I am well satisisfied with it, as it grinds twice as fast as the "Yung Amrice Mill." which was tested by my neighbor, Joshua Duncan, and proved to be a worthless Mill. He has since bought an interest in my Star Mill.
